Press Release

Gecko Software, Inc. to release Track 'n Trade v4.0 and Options Plug-in

The 4th Annual Track 'n Trade Pro Trade Show will feature top educators in the Futures Industry

Logan, UT, January, 2004: The day-long trade show will be held on March 20, 2004 at the Monte Carlo Resort and Casino in Las Vegas, Nevada. The focus and topic of the seminar will be Options. With the release of the newest version of Track 'n Trade, Gecko Software, Inc. will introduce their long awaited and very unique Options Plug-in, which will allow Track 'n Trade users to paper trade options. Lan Turner, President and CEO of Gecko Software, Inc., will be demonstrating how to utilize the Options Plug-in using Track 'n Trade v.4.0

Other speakers will include **John Person**, published author, Money Watch Radio Show host, and nationally know market analyst, who often appears on CNBC and quoted on CNN and in the Wall Street Journal. **Jake Bernstein**, who has authored of over 35 major books on trading and investing in stocks and futures, and had done revolutionary work on cycles, seasonals and unique timing indicators. **David Duty**, the author and publisher of the Common \$ense Commodities course, is a well known author and educator and has held numerous seminars around the world; as well as doing private training for his students. **Scott Barrie**, who has worked in the futures and options industry for over a decade, has been a floor trader, and a consultant with a major risk management firm. **Paul Brittain**, who spent many years working with other market professionals to develop options and futures trading techniques suitable for almost every type of trader, individual and commercials alike. **Neil Weintraub**, who currently works at the Chicago Mercantile Exchange (CME) as a professional Educator and Lecturer that specializing in analyzing the markets. Neil is also the founder of the Center for Advanced Research in Computerized Trading.
